- ❖ Show count for search results
- ❖ Add products in cart directly to let customers make purchases instantly
- ❖ 100% Open Source

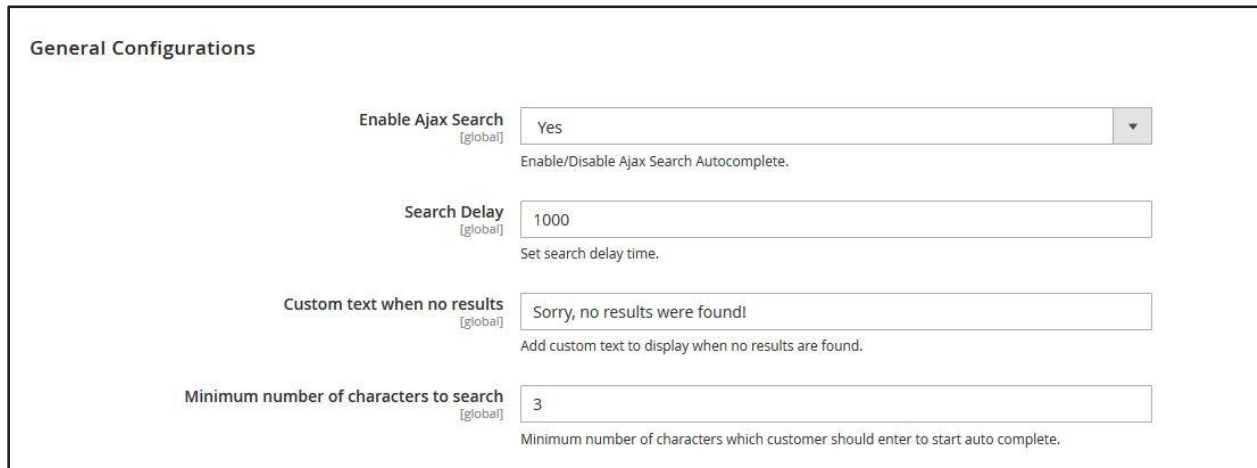

## 1. HOW TO ENABLE AUTOCOMPLETE SEARCH

To use this extension, you first need to enable it from the backend.

Go to Magento 2 Admin > Login > Stores > Configuration > Sparsh Extensions > Ajax Search Autocomplete.

Expand the **General Settings** section, and do the following:

- **Enable Ajax Search:** Select “Yes” to enable autocomplete search.
- **Search Delay:** Define the search delay period. A period between a customer pressing keys and search starting.
- **Custom text when no results:** Enter custom text to display when no results are found.
- **Minimum number of characters to search:** Enter the minimum number of characters which customers should enter to start to autocomplete search.

The screenshot shows the 'General Configurations' section of the Sparsh Extensions configuration page. It contains four settings:

- Enable Ajax Search** [global]: A dropdown menu set to 'Yes'. Description: Enable/Disable Ajax Search Autocomplete.
- Search Delay** [global]: A text input field containing '1000'. Description: Set search delay time.
- Custom text when no results** [global]: A text input field containing 'Sorry, no results were found!'. Description: Add custom text to display when no results are found.
- Minimum number of characters to search** [global]: A text input field containing '3'. Description: Minimum number of characters which customer should enter to start auto complete.

Expand the **Product Search Settings** section, and do the following:

- **Enable Product Search:** Select “Yes” to enable autocomplete search from products.
- **Maximum number of items displayed:** Enter the maximum number of products to display in autocomplete popup.
- **Product Search Result Fields:** Select product fields to display in autocomplete popup.

- **Maximum number of words for product description:** Enter the maximum number of words to display in autocomplete popup for the description text.
