

CALL FOR PRICE

USER GUIDE

Version 1.0.0

Welcome to Call for Price for Magento 2 developed by Sparsh

This extension allows you to hide price and "Add to Cart" button and facilitates customers to make inquiries about your products by filling in a simple popup form.

KEY FEATURES:

- ❖ Enable the inquiry button to all products or separately per product.
- ❖ Hide the price for all products or separately per product
- ❖ Hide the "add to cart" button for all products or separately per product.
- ❖ Define the custom inquiry button text. E.g., "Click here for Inquiry" or "Ask Question" or "Call for price".
- ❖ Denies your competitors to disclose the price of your products.
- ❖ Persuade customers to contact you for pricing.
- ❖ Both customers & guest users can send the inquiry.
- ❖ Add an inquiry form to any product.
- ❖ Use ajax based inquiry form.
- ❖ Notify admin via email.
- ❖ Set your own email address and email template for inquiry.
- ❖ Manage inquiry request details from admin.
- ❖ By default, working on category listing page, product detail page, search result page, advance search page, compare products page, related products, side bar, my wishlist page etc...
- ❖ Enable or disable as per convenience.
- ❖ Free Support and Updates.

Enter the label text to be shown on a storefront

Add label text color to show

- **Enable Call for Price for Selected Groups:** Select "Yes" to enable Call for Price for specified customer groups.
- **Select Customer Groups:** Select customer group to show Call for Price.
- **Show Inquiry Form In Product Information Tab:** Select "Yes" to show Call for Price form in product information tab on product view page.

Is the call for Price Tab not visible on frontend? [Click here to show the tab](#)

- **Inquiry Tab Label:** Add tab label for Call for Price tab.

The screenshot shows a configuration form with the following fields and annotations:

- Enable Call for Price for Selected Groups** (store view): A dropdown menu set to "Yes". Annotation: "Select 'Yes' to enable Call for Price for specified customer groups".
- Select Customer Groups** (store view): A list box containing "NOT LOGGED IN", "General", "Wholesale", and "Retailer". Annotation: "Select customer group to show Call for Price".
- Show Inquiry Form In Product Information Tab** (store view): A dropdown menu set to "Yes". Annotation: "Select 'Yes' to show Call for Price form in product information tab on product view page".
- Inquiry Tab Label** (store view): A text input field containing "title". Annotation: "Add tab label for Call for Price tab".

Below the list box, there is a note: "Call for Price will be shown for selected customer groups only."

Note: To display Call for Price form to Tab in the Frontend

It needs to be pointed out that the *functionality of the extension strongly depends on the proper performance of the default Magento features*. Magento removes the Product Tabs block when the Layout is set to "**Product – Full Width**" option in the products. In this case, custom product tabs aren't added to the general Tabs block, as it does not exist in the "Full Width" template.

In this case, to display Call for Price form Tab on the frontend, we recommend navigating to **Catalog > Products > Edit the product > Design** and switch the Layout option to "**No Layout Updates**" value as mentioned in the screenshot below.

The screenshot shows the 'Design' tab in the Magento admin interface for the product 'Crown Summit Backpack'. The 'Layout' dropdown menu is set to 'No layout updates' and is highlighted with a red box. An annotation points to this dropdown with the text 'Switch the Layout option'. Other visible options include 'Display Product Options In' (set to 'Block after Info Column') and 'Custom Layout Update' (set to 'No update').

❖ ADMIN EMAIL SETTINGS

Call for Price extension will send email to admin when customer add Call for Price.

- **Admin Email:** Add the email address at which inquiry email will be received.
- **Email Sender:** Select email sender mail address.
- **Email Template:** Choose an email template for the inquiry email. You can define your own template from **Marketing > Email Templates** and use it over here.

The screenshot shows the 'Admin Email Settings' form. It includes three main fields: 'Admin Email' with the value 'sparsh.test@gmail.com', 'Email Sender' set to 'General Contact', and 'Email Template' set to 'Call for Price Form (Default)'. A 'Use system value' checkbox is checked. Red callout boxes provide instructions: 'Add the email address at which inquiry email will be received' points to the Admin Email field; 'Select email sender mail address' points to the Email Sender dropdown; and 'Choose an email template for the inquiry email' points to the Email Template dropdown. A note at the bottom states: 'Email template chosen based on theme fallback when "Default" option is selected.'

❖ AUTO REPLY EMAIL SETTINGS

Call for Price extension will send auto reply email customer when customer add Call for Price.

- **Auto Reply Email to Customer:** Select "Enable" to send auto reply email to customer.
- **Email Sender:** Select the email sender from which auto reply email will be sent.
- **Email Template:** Select email template for auto reply email.

The screenshot shows the 'Auto Reply Email Settings' form. It includes three main fields: 'Auto Reply Email to Customer' set to 'Enable', 'Email Sender' set to 'General Contact', and 'Email Template' set to 'Call for Price Auto Reply (Default)'. Red callout boxes provide instructions: 'Select "Enable" to send auto reply email to customer' points to the Auto Reply Email to Customer dropdown; 'Select the email sender from which auto reply email will be sent.' points to the Email Sender dropdown; and 'Select email template for auto reply email' points to the Email Template dropdown.

❖ GOOGLE reCAPTCHA SETTINGS

Call for Price extension allows to enable the Google reCAPTCHA v3 in the Call for Price form to avoid spam for Call for Price.

- **Google reCAPTCHA:** Select "Enable" to enable the Google reCAPTCHA in the Call for Price form.
- **Site Key:** Enter the site key for Google reCAPTCHA v3.
- **Secret key:** Enter the secret key for Google reCAPTCHA v3.

The screenshot shows the 'Google reCAPTCHA Settings' interface. It features three main input fields: 'Google reCAPTCHA' (a dropdown menu set to 'Enable'), 'Site Key' (an empty text box), and 'Secret key' (an empty text box). Red callout boxes with arrows point to each field, providing instructions: 'Select "Enable" to enable the Google reCAPTCHA in the Call for Price form' points to the dropdown; 'Enter the site key for Google reCAPTCHA v3' points to the Site Key field; and 'Enter the secret key for Google reCAPTCHA v3' points to the Secret key field. Below the Site Key and Secret key fields, there is a note: 'Register with Google reCAPTCHA to get your site key.' and 'Register with Google reCAPTCHA to get your secret key.' respectively.

❖ COUNT SETTINGS

Users can show the total Call for Price count on the product view page.

- **Show Call for Price Inquiry Count:** Select "Yes" to show Call for Price Inquiry count on product view page.
- **Inquiry Message For Already Inquired:** Add message to show with Call for Price count.

The screenshot shows the 'Count Settings' interface. It features two main input fields: 'Show Call for Price Inquiry Count' (a dropdown menu set to 'Yes') and 'Inquiry Message For Already Inquired' (a text box containing 'Customer(s) had already inquired for this product.'). Red callout boxes with arrows point to each field, providing instructions: 'Select "Yes" to show Call for Price Inquiry count on product view page' points to the dropdown; and 'Add message to show with Call for Price count' points to the text box. Below the 'Inquiry Message For Already Inquired' field, there is a note: 'This message will display in front side. Ex. {count} customer(s) had already inquired for this product.'

2. LIST CALL FOR PRICE INQUIRIES

To check or delete Call for Price inquiries go to **Magento Admin > Call for Price**

Call For Price Inquiries

Search by keyword

6. CALL FOR PRICE FORM POPUP

On click of an inquiry button, a popup form will be opened to inquire about given product.

7. CALL FOR PRICE INQUIRIES IN CUSTOMER'S MY ACCOUNT SECTION

Customers can check all Call For Price Inquiries asked by him/her in the "**Call For Price Inquiries**" tab in customer my account page.

8. HOW TO SHOW IT ON DEFAULT WIDGET LIKE HOT SELLERS ON HOMEPAGE

To have it on Hot Sellers section on homepage, go to **Content > Elements > Blocks > Edit Home Page Block**

Click on "Show / Hide Editor" button and find the text as shown below

```

{{widget type="Magento\CatalogWidget\Block\Product\ProductsList"
products_per_page="8" products_count="8"
template="product/widget/content/grid.phtml"
conditions_encoded="^[`1`:^[`type`:`Magento||CatalogWidget||Model|
|Rule||Condition||Combine`,`aggregator`:`all`,`value`:`1`,`new_chi
ld`:``^`,`1--
1`:^[`type`:`Magento||CatalogWidget||Model|Rule||Condition||Produ
ct`,`attribute`:`sku`,`operator`:`()`,`value`:`WS12, WT09, MT07,
MH07, 24-MB02, 24-WB04, 241-MB08, 240-LV05`^]`^]"}}

```

Replace the highlighted text/template with below:

```

template="Sparsh_ProductInquiryPro::product/widget/content/grid.ph
tml"

```

Save block and clear cache from **System > Tools > Cache Management**. Refresh homepage and check Hot Sellers section.

Note: Take a backup of block content once, considering the risk of design getting broken if you are not a technical person.
