

FEATURED PRODUCTS

USER GUIDE

Version 1.0.1

Welcome to Featured Products Extension for Magento 2 developed by Sparsh.

This extension is used to display products as Featured Products on your storefront. You can use it anywhere like the home page or any other pages using block and widget so customers can view and buy it.

Every below steps helps to show featured products on your site

1. HOW TO DEFINE PRODUCT AS FEATURED PRODUCT

Go to [Magento 2 Admin] > Login > Catalog > Products > Add / Edit Product

There will be an attribute shown named: Is Featured

By default, it's disable. Click on it to make it enable as shown in below image.

The screenshot shows the 'Add/Edit Product' page in the Magento 2 Admin. The 'Is Featured' attribute is highlighted with a red box. A red arrow points from this box to a text box that reads: "Choose 'Yes' from the add/edit product page to mark any product as a featured product. The default value is 'No'." The 'Is Featured' attribute is currently set to 'No' (the toggle switch is off).

Weight [global]	<input type="text" value="lbs"/>	This item has weight	▼
Categories [global]	<input type="text" value="Select..."/>		▼ <input type="button" value="New Category"/>
Visibility [store view]	<input type="text" value="Catalog, Search"/>		▼
Set Product as New From [website]	<input type="text" value=""/>	To	<input type="text" value=""/>
Country of Manufacture [website]	<input type="text" value=""/>		▼
Is Featured [global]	<input checked="" type="checkbox"/>	Yes	

You can also find all featured products by filtering with attribute “Is Featured” as shown in below image.

Find all featured products by choosing "Yes" from "Is Featured" dropdown from product filters.

2. HOW TO ADD FEATUED PRODUCT WIDGET SLIDER FOR GIVEN CMS PAGE

Go to [Magento 2 Admin] > Login > Content > Elements > Pages > Add / Edit Page

Open "Content" > Click on "Show / Hide Editor" button > Click on "Insert Widget" button

Click "Insert Widget" from add/edit CMS page for which you want to add the Featured Products Slider.

Choose Widget Type as "Featured Products Slider" > Click on "Insert Widget" button

Choose "Featured Products Slider" widget type to display on the frontend for given CMS page

3. STORE FRONT VIEW

Clear cache from System > Tools > Cache Management if required.

Showing your featured products like below on storefront.
