

QUICK VIEW

USER GUIDE

Version 1.0.1

Welcome to Quick View Extension for Magento 2 developed by Sparsh.

This extension brings a convenient experience to the customers by allowing a single click to get the product info and add to the cart immediately without any need of the loading page for product detail and come back and forth.

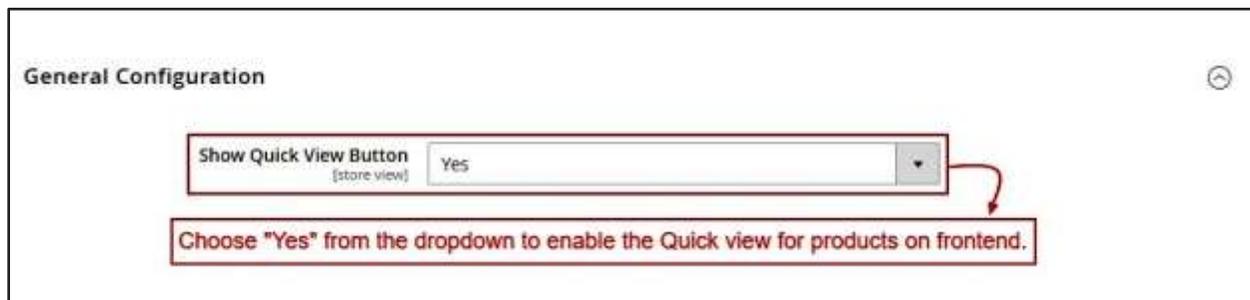

Every below steps helps to show quick view button on your site.

1. HOW TO ENABLE QUICK VIEW EXTENSION

Go to [Magento 2 Admin] > Stores > Settings > Configuration > Sparsh Extensions > Quick View

Expand the **General Configuration** and do the following:

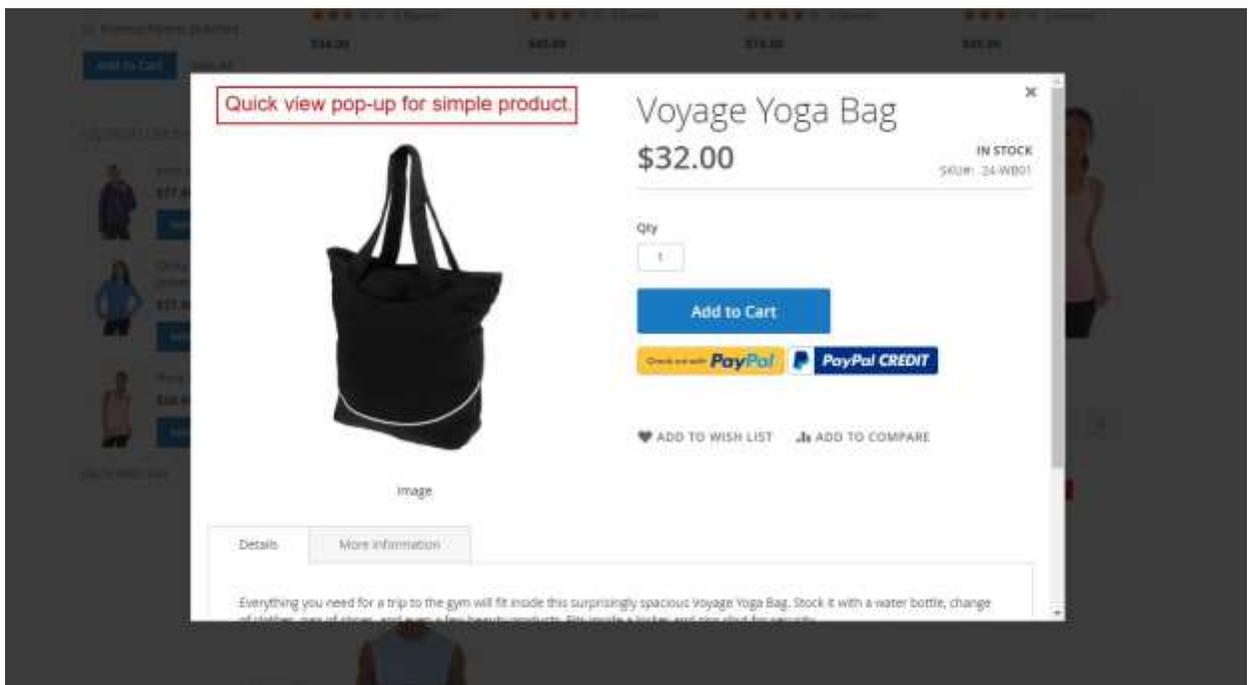

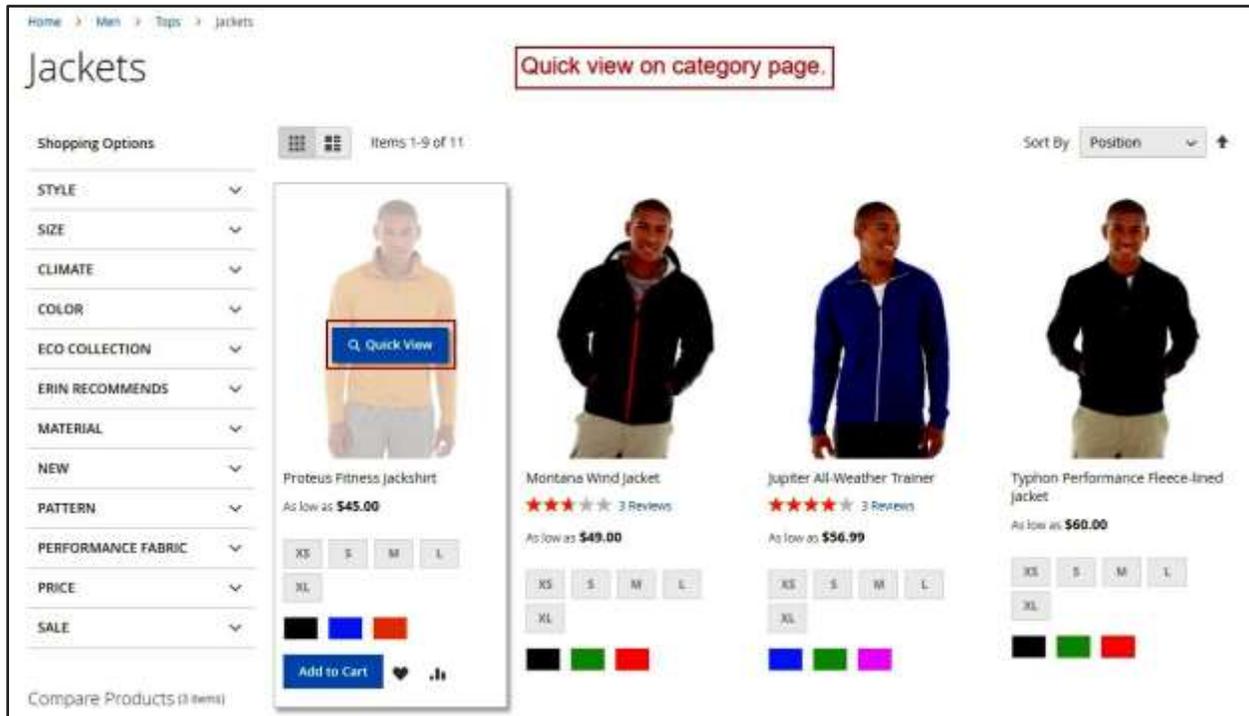

In order to enable the Quick View button, choose “**Show Quick View Button**” as Yes.

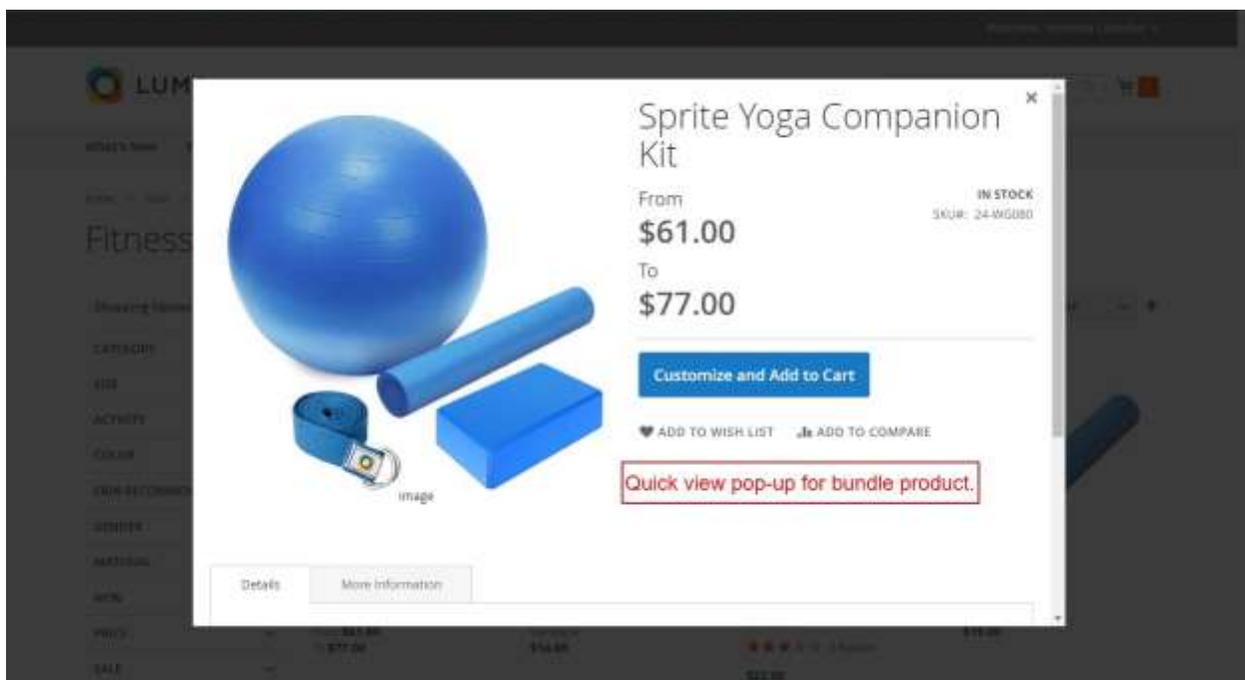

2. STOREFRONT VIEW

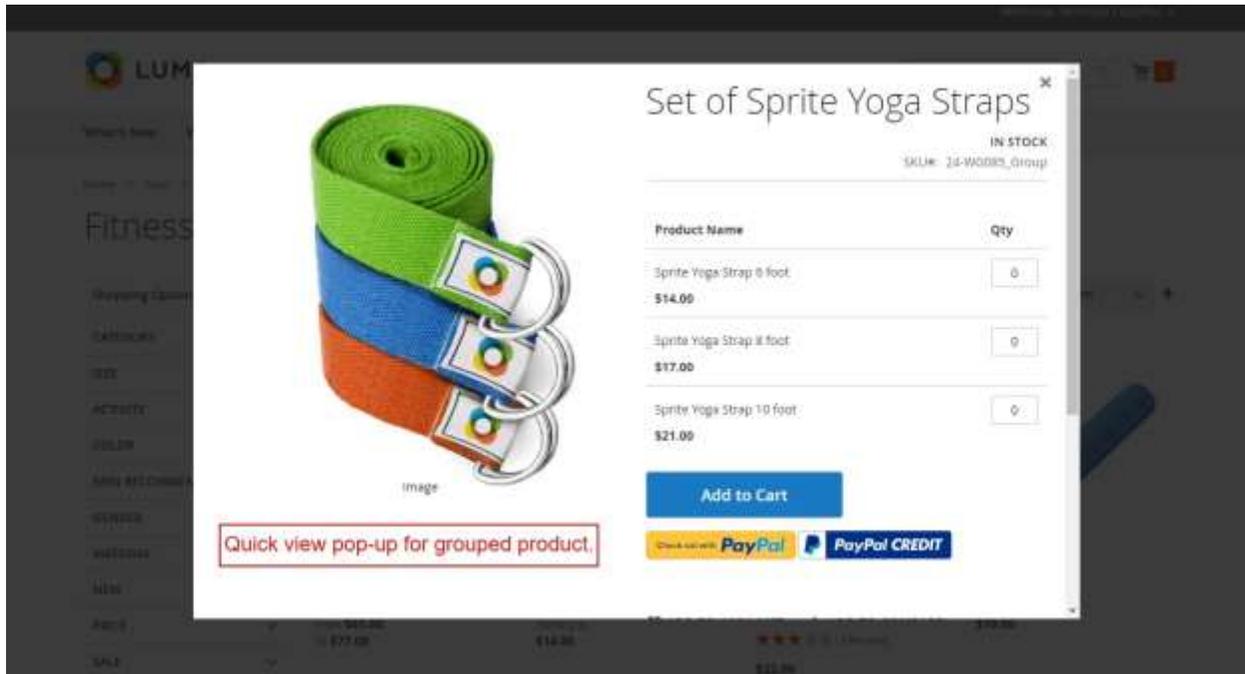

Clear cache from System > Tools > Cache Management if required.

Once enabled, you can get “Quick view” button on mouse hover of given product as shown in below screen shot. On click of that button, a pop up will be open with all the details of that product. You can add the product to the cart or wish list page or compare list right from the pop up, close it and browse other product details by opening pop up for those products quickly without going back and forth to product detail page.

Quick view will be available for all types of products i.e. configurable, bundle, grouped, downloadable, virtual etc...

Luma founder Erin Renny on yoga and longevity: "I won't promise you'll live longer with yoga. No one can promise that, but your life will be healthier, less stressful, and more physically in tune when you focus on connecting your mind and body on a regular basis. Yoga is my favorite way to express this connection. I want to share the secrets of lifelong yoga with anyone willing to breathe and learn with me."
