

SHARE SHOPPING CART

USER GUIDE

Version 1.0.1

Welcome to Share Shopping Cart Extension for Magento 2 developed by Sparsh.

This extension allows the users to share their shopping cart via email to family/friends.

KEY FEATURES:

- ❖ Easy to install & manage
- ❖ Enable/disable from the backend
- ❖ Allow sharing shopping cart on a single click
- ❖ Easy to share cart items by sending a link through an email
- ❖ More sales conversion, more revenue, product awareness
- ❖ Allow to choose email templates and email sender
- ❖ Restrict based on customer groups
- ❖ 100% Open Source

1. HOW TO ENABLE SHARE SHOPPING CART BUTTON

To use this extension, you first need to enable it from the backend.

Go to Magento 2 Admin > Login > Stores > Configuration > Sparsh Extensions > Share Cart.

Expand the **General Configuration** section, and do the following:

- **Enabled:** Select “Yes” to enable the share shopping cart button on the cart page.
- **Email Sender:** Choose an email sender for the share cart email.
- **Email Template:** Choose an email template for the share cart email.
- **Customer Group:** Choose customer groups for which the share cart button is available.

General Configuration

Enabled (store view) Yes

2. STORE FRONT VIEW

Once enabled, based on the customer group configuration, the user will get the “Share Cart” button on the cart page as shown below.

Shopping Cart

Item	Price	Qty	Subtotal
 <p>Nadia Elements Shell</p> <p>Size: M</p> <p>Color: Orange</p>	\$69.00	1	\$69.00

On clicking of the “Share Cart” button, a pop up will be opened to enter the sender name, recipient name, recipient email, and message for the recipient.

Share your cart with... ✕

Fill the following details of a person with whom, you want to share this cart.
We will send an email with cart data and link to that person

Sender Name *

Recipient Name *

Recipient Email *

Message *

Submit

On submitting the form, a recipient will receive an email with a link to view the shopping cart of the sender.

In order to work this feature, below basic settings needs to be done from admin.
