

SMS NOTIFICATION

USER GUIDE

Version 1.0.1

Welcome to SMS Notification Extension for Magento 2 developed by Sparsh.

This extension enhances the user experience by instantly notify customers and administrator via SMS about their order/invoice/shipment/credit memo creation.

KEY FEATURES:

- ❖ Notify customers and admin via SMS about activities such as order placement or cancellation, invoice, shipment and credit note generation, etc. in Magento 2 store
- ❖ As soon as the mobile number is captured with the Magento 2 store, SMS notification is sent for each store and order activity.
- ❖ Admin can activate or deactivate SMS Notification from the backend
- ❖ Create custom SMS templates with dynamic variables
- ❖ Make use of system variables like customer_name, order_id, shop_name, shop_url, and many others to prepare custom SMS notification texts
- ❖ Supports the world's leading SMS service providers: Twilio and Msg91
- ❖ Enable/Disable customer notifications
- ❖ Admin can set a mobile number to get notified of each store order updates
- ❖ SMS notification enhances customer loyalty, build trust and credibility of your brand

1. CONFIGURE SMS NOTIFICATION EXTENSION

To use this extension, you first need to enable it from the backend.

Go to Magento 2 Admin > Login > Stores > Configuration > Sparsh Extensions > SMS Notification.

Expand the **General** section, and do the following:

- **Enabled For Customer:** Select “Yes” to send SMS notifications to customers.

- **Send Notification To Customer When:** Choose events for which you like to send notifications to customers. E.g. Order placed, Order Cancelled, Invoice Generated, Shipped, or Refund.
- **Enabled For Admin:** Select “Yes” to send SMS notifications to the admin.
- **Send Notification To Admin When:** Choose events for which you like to send notifications to the Admin. E.g. Order placed, Order Cancelled, Invoice Generated, Shipped, or Refund.
- **Admin Phone Number:** Enter the phone number on which admin will receive the notification. Add the number with country code without + sign.

2. SMS NOTIFICATION

Once saved and configured as above, whenever a new order is placed or canceled or an invoice or shipment or credit note is generated, the admin and customer will receive an SMS for the related activity.

For customers to receive a notification, the mobile number needs to be captured by the system first from the checkout or any other page.

#000000058

← Back Send Email Credit Memo Reorder
