1. HOW TO ENABLE SOCIAL SHARE WIDGET ON FRONTEND

To use this extension, you first need to enable it from the backend.

Go to Magento 2 Admin > Login > Stores > Configuration > Sparsh Extensions > Social Share.

Expand the **General Configuration** section, and do the following:

- **Enable:** Select “Yes” to enable the social share options on the front end.
- **Color Schema:** You can choose to have default social media icons or can customize it. On choosing “Custom Color Icon”, you will have options to choose button and icon colors.
- **Button Color:** Choose the color for the social media buttons.
- **Icon Color:** Choose the color for the social media icons.
- **Icon Background Color:** Choose the background color for the social media icons.
- **Icon Border Radius:** Choose the border-radius for social media icons.
- **Enable Share Counter:** Enable/Disable share counter.
- **Thank You Popup:** Enable/Disable thank you popup after sharing.

General Configuration

You can enable this extension from here.

Enable [store view] Yes Use system value

Color Schema [store view] Custom Color Icon Use system value

Button Color [store view] #FFFFFF Use system value
